

**CHAIR OF ENERGY SUSTAINABILITY (CES) OF THE UNIVERSITY OF BARCELONA  
(FUNSEAM – IEB&UB)**

**INTERNATIONAL ACADEMIC SYMPOSIUM**

**Energy and environmental policy**

**Location: Barcelona Science Park. Reixac Baldiri 4-8. Auditorium.**

**Date: February 02, 2016**

**PRESENTATION**

The **Symposium on Energy and Environmental Policy** will bring together high ranking researchers in the field of energy economics. The meeting will examine various questions related to the low carbon alternatives (energy storage, RES-E, and shale gas), the markets and networks (energy losses, CO2 market design and distributed generation), and the environmental policies (RES-E promotion, consumption side policies, industrial policy for climate change mitigation, and environmental R&D investment.)

The meeting, to be held in Barcelona on 02 February 2016, forms part of the activities organised by the UB-IEB Chair in Energy Sustainability, sponsored by the Foundation for Energy and Environmental Sustainability (FUNSEAM). The group hopes that the symposium will help disseminate the work of leading researchers in the field of energy economics, with a particular emphasis on markets and sustainability.

As the program shows, the high quality of the speakers and the invited specialists augurs well for the success of the meeting.

We look forward to seeing you in Barcelona.

**Agenda:**

|             |                                                                                                                                                                                                                                                                                                                          |
