

## **1<sup>st</sup> WORKSHOP ON VIOLENCE AGAINST WOMEN: DRIVERS AND POLICIES**

Barcelona, October 23-24, 2024

The European Research Council (ERC) **WomEmpower** project and the Barcelona Institute of Economics (IEB) will host their 1<sup>st</sup> Workshop on Violence Against Women: Drivers and Policies on October 23 and 24 2024. The aim of the workshop is to bring together original research that uses **population-based data** from a **wide variety of sources** (for example, hospital records; police records; or face-to-face survey interviews) and aims at better understanding **which factors, policies, or interventions increase or decrease the risk of victimization or perpetration against women and/or female partners**. Studies that identify the **mechanisms** driving IPV in high-income countries, as well as the **population subgroups most at risk** of victimization in those countries will be prioritized. Research on low- and middle-income countries will also be considered.

The accepted papers will be presented in contributed sessions and there will be two plenary sessions.
