

Program

II Seminar PhD-Students on Energy and Environment

April 2, 2025

10:00 am

Seminar room 1037

10:00 h	<ul style="list-style-type: none"> Carbon emissions and the transmission of monetary policy, José Nicolás Rosas (Universitat Pompeu Fabra)
10:25 h	<ul style="list-style-type: none"> Economics of grid interconnections: a heterogeneous markets' design context, Damoun Anas (University of the Basque Country)
10:50 h	<ul style="list-style-type: none"> From grid to home: power outages, demand-side barriers, and households' electrification decisions—implications on energy poverty, Dagmawe Tenaw (University of Padova)
11:15 h	<ul style="list-style-type: none"> The Impact of Artificial Intelligence on the Energy Transition, Jingyang Wang (Chair of Energy Sustainability (IEB-UB))
11:40 h	Break
12:00 h	<ul style="list-style-type: none"> Refrigeration, diets a human health: evidence from Ghana, Enoch Ntsiful (Chair of Energy Sustainability (IEB-UB))
12:25 h	<ul style="list-style-type: none"> Corporate decarbonization: Understanding CO₂ emission drivers and CO₂ efficiency across high - and- low polluting firms, Yanik Nimitz (Universitat Rovira i Virgili)
12:50 h	<ul style="list-style-type: none"> The long-term impact of forest fires on carbon sequestration in Europe, Osman Hakan (Chair of Energy Sustainability (IEB-UB))
13:15 h	<ul style="list-style-type: none"> The Impact of Electric Vehicle Demand on the Entry of Charging Stations in Spain, Yu Sang (Universitat Autònoma de Barcelona)

Registration: To secure your spot, simply send an email to chairenergysustainability@ub.edu with your name and contact details.
